Agent Experience

Jonathan works with several programming languages including: Python, JavaScript, React, React Native, Node.js, SQL and TypeScript. He is a registered Apple Developer and works to produce dynamic mobile applications for iOS, Apple TV, Android and Android TV. You may have noticed some of these technologies incorporated into the Passport Realty website and mobile applications.

About Me

Jonathan founded Passport Realty with his wife Lourdes in 2013. Since that time they have grown to be a powerful team selling real estate within Ecuador. His original focus was in the IT sector and has expanded to include photography, aerial photography, video production and various marketing skills. Jonathan enjoys biking, running, hiking and spending time with his wife and son whenever possible.
